

**CONFIDENTIAL**

7 January 1949

MEMORANDUM FOR RECORD

SUBJECT: Radio Broadcasting and Monitoring Activities on Okinawa

1. I was advised by Lt. Colonel Hendrick, Chief, Far Eastern Section, Interdepartmental Coordinating Office, Civil Affairs Division, Department of the Army, by telephone on 7 January 1949 that the proposed cable with reference to radio broadcasting and monitoring activities was being dispatched by the Department of the Army. The only change made in the proposed draft was to change the last sentence to read, "In view of this monitoring activity and certain broadcasting activities contemplated by National Security Council, request any local project of this type be referred to the Department of the Army in order to insure coordination with interested governmental agencies," or words to that effect.

2. Colonel Hendrick further said that I would be placed on the distribution list and would receive a copy of this message as dispatched.
